

# Winter Puzzles

This pack contains six different winter word puzzles and a vocabulary handout of 20 winter words (each puzzle uses a selection of the words). All puzzles are given in two versions for differentiation in the classroom. No preparation is required to use them - just print and go. Answer keys are included.

1. Picture word search - the easier version has word and picture clues, the other just the pictures.
2. Picture crossword - crossword using picture clues. The easier version has the first letter of each word already in the grid.
3. Word paths - draw a path through each letter grid to spell out the winter words. One version has arrows to mark the start and end of each word.
4. Codebreaker puzzle - version one gives a full key to the letters but version two only gives some of the letters and this information must be used along with the pictures to work out the remaining letters. The completed words are then matched to the correct pictures.
5. Missing letters puzzle - the easier one has only the vowels missing, the other has every second letter missing. The words are then matched to the correct picture.
6. Word scramble: seeing double - 8 word scrambles where the letters are given in picture grids that also include extra letters. Any repeated letters must first be crossed out, and then the remaining letters rearranged to make the winter words. The easier version also gives a picture clue for each word
7. Vocabulary handout

This resource is designed for US Letter size.
